### BUSINESS REVIEW

In the first half of 2021, the economy in China maintained its steady recovery with major economic indicators continued to improve. The economic growth remained positive and strong. Property sales recorded a year-on-year growth of 38.9% to RMB9.3 trillion due to the low base effect. Market demands remained strong in major cities. However, market expectation was effectively contained by central and local government policies on the regulation of financial and land supply as well as second hand property market.

In face of intensified competition and tightened regulatory policies, real estate developers have entered a new business development cycle and have to improve quality and efficiency and to reduce gearing ratio. It requires forward-looking investment strategy, competitive products and services, strong sales and cash flow, good brand reputation and comprehensive delicacy management system.

In accordance with its business strategy, the Group has proactively restructured its resources through focusing on expansions mainly in Yangtze River Delta and Greater Bay Area over the past few years. We actively explore diversified channels for land acquisitions, including urban renewal, primary and secondary co-development, transfer agreement and joint venture, to manage land cost at reasonable levels. We are also seeking cooperation with various segments of China Poly Group to leverage on the platform, resources and business of the parent company.

In respect of product development, following the launch of POLY LIGHT, a composite housing system 3.0 for all ages, and "Delightful Residence in Metropolitan City" for cultural habitants in last year, we introduced a dozen of projects under the brand "Moon" (玥) in various cities in China and the first project under the brand "Garden" (園) in Suzhou in the first half of this year. Due to our successful investment and product strategies, the Group, together with its joint ventures and associated companies ("Poly Property Group") recorded contracted sales of RMB31.3 billion in the first half of this year, representing a year-on-year increase of 60%. During the period, we launched the campaign of "Poly Youth Ambition" (保利少年志) and a few other major social activities, which has greatly enhanced the brand image and market recognition of "Poly Property".

## MANAGEMENT DISCUSSION AND ANALYSIS

To further improve our development quality and efficiency, the Group will continue to strengthen its operation and financial management to promote the destocking and optimize resources allocation. The efficiency of new project development further improved through the establishment and enhancement of operation management system. The average funding cost remained low at 4.63% in the first half of this year and enjoys comparative advantage in the industry. The debt structure was further improved with the percentage of short-term borrowing reduced to 23%, a decrease of 9 percentage points compared to the end of last year.

The central politburo reiterated its policy of “no speculation of residential properties” (房住不炒) and its intention to stabilize land premium, property price and market expectation so as to maintain the stable and healthy development of the real estate market. It is expected that the regulation of the property market will remain tight in the second half of this year and most of the regulatory policies will continue. Pursuant to our goal of “Building another Poly Property within Next Five Years” under the “14th Five-Year Plan”, the Group will remain focused on its major business of property development and further improve its delicacy management system. It is the objective of the Company to become a modern outperforming enterprise focusing in its major business with sound governance and is highly respected for its open and inclusive business philosophy.

# NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

## 1. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The condensed consolidated financial statements have been prepared in accordance with the same accounting policies adopted in the most recent consolidated financial statements for the year ended 31 December 2020, except for the changes in accounting policy made when the Group initially applies financial reporting standards newly applicable to the annual accounting period beginning on 1 January 2021.

The preparation of condensed consolidated financial statements in conformity with HKAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This report contains condensed consolidated financial statements and selected explanatory notes. The explanatory notes include an explanation of events and transactions that are significant to the understanding of the changes in financial position and performance of the Group since the most recent consolidated financial statements for the year ended 31 December 2020. The condensed consolidated financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”).

The financial information relating to the financial year ended 31 December 2020 that is included in this report of the interim results for the six months ended 30 June 2021 as comparative information does not constitute the Company’s statutory annual consolidated financial statements for that financial year but is derived from those financial statements. Further information relating to these statutory financial statements disclosed in accordance with section 436 of the Hong Kong Companies Ordinance (Cap. 622) is as follows:

The Company has delivered the financial statements for the year ended 31 December 2020 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Hong Kong Companies Ordinance (Cap. 622).

The Company’s auditor has reported on those financial statements. The auditor’s report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report; and did not contain a statement under sections 406(2), 407(2) or (3) of the Hong Kong Companies Ordinance (Cap. 622).

## NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The HKICPA has issued the following amendments to HKFRSs that are first effective for the current accounting period of the Group. Of these, the following amendments are relevant to the Group:

The Group has assessed the impact of the adoption of these new and amended standards that are effective for the first time for this interim.

The impact of the adoption of these new and amended standards did not have any material impact on the Group's accounting policies and did not require retrospective adjustments.

The following new/revised HKFRSs, potentially relevant to the Group's financial statements, have been issued, but are not yet effective and have not been early adopted by the Group. The Group's current intention is to apply these changes on the date they become effective.

### 26. FAIR VALUE MEASUREMENTS

#### (i) Financial instruments carried at fair value

The fair value of financial assets are determined with reference to quoted market prices or using valuation techniques in which any significant input is not based on observable market data.

The following table presents financial instruments measured at fair value in the condensed consolidated statement of financial position on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, "Fair Value Measurement". The level into which a fair value measurement classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 (highest level): fair values measured using quoted prices (unadjusted) in active markets for identical financial instruments
- Level 2: fair values measured using quoted prices in active markets for similar financial instruments, or using valuation techniques in which all significant inputs are directly or indirectly based on observable market data
- Level 3 (lowest level): fair values measured using valuation techniques in which any significant input is not based on observable market data

At 30 June 2021, the Group had following financial instruments carried at fair value all of which are based on the level 1 or level 3 of the fair value hierarchy:

	Fair value at 30 June 2021 HK\$'000	Fair value measurements as at 30 June 2021 categorised into

During the six months period ended 30 June 2021 and the year ended 31 December 2020, there were no significant transfers between financial instruments in level 1 and level 2, or transfer into and out of level 3. The Group policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

(ii) **The fair values of financial assets and financial liabilities are determined as follows:**

The fair values of financial assets with standard terms and conditions and traded on active liquid markets are determined with reference to quoted active bid prices and ask prices respectively; and the fair values of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices or rates from observable current market transactions as input.

## OTHER INFORMATION

### INTERIM DIVIDEND

The Directors have resolved not to declare any interim dividend for the six months ended 30 June 2021 (six months ended 30 June 2020: HK\$Nil).

### SHARE OPTION SCHEME

In order to provide incentives or rewards to the Directors and employees of the Company and certain eligible persons (together, "Eligible Participants") to contribute to the long term success of the business of the Group, the Board of Directors of the Company considers that it is in the best interest of the Company to adopt a share option scheme.

At the annual general meeting of the Company held on 28 May 2014, the shareholders of the Company adopted a share option scheme (the "Share Option Scheme"), pursuant to which the Eligible Participants may be granted a maximum of 364,463,704 options to subscribe for shares of the Company upon and subject to the terms and conditions of the rules of the Share Option Scheme. The Share Option Scheme shall be valid and effective for a period of 10 years commencing on the adoption date of 28 May 2014 and expiring on 27 May 2024.

According to the Share Option Scheme, the Board of Directors of the Company may grant options to (i) any Director and employee of the Company or its subsidiaries, or an entity in which the Group holds an interest ("Affiliate"); (ii) any customer, supplier, agent, partner, consultant, adviser or shareholder of or contractor to the Group or an Affiliate; (iii) the trustee of any trust the beneficiary of which or any discretionary trust the discretionary objects of which include any Director, employee, customer, supplier, agent, partner, consultant, adviser or shareholder of or contractor to the Group or an Affiliate; or (iv) a company beneficially owned by any Director, employee, consultant, customer, supplier, agent, partner, shareholder, adviser or contractor to the Group or an Affiliate to subscribe for shares of the Company for a consideration of HK\$1 for each lot of share options granted.

Share options granted should be accepted within 28 days from the date of grant. The Board of Directors may at its absolute discretion determine the period during which a share option may be exercised; such period should expire no later than 10 years from the date of grant of the relevant option. The Board of Directors may also provide restrictions on the exercise of a share option during the period a share option may be exercised.

The exercise price is determined by the Board of Directors of the Company, and shall not be less than the highest of: (i) the closing price of the Company's shares on the date of grant; (ii) the average closing price of the Company's shares for the five business days immediately preceding the date of grant.

The maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option schemes of the Company shall not, in aggregate, exceed 30% of the total number of shares in issue.

## OTHER INFORMATION

The total number of shares issued and to be issued upon exercise of the options granted to each individual under the Share Option Scheme and any other share option schemes of the Company (including both exercised, cancelled and outstanding options) in any 12-month period shall not exceed 1% of the total number of shares in issue.

The fair value of share options granted to Eligible Participants is recognised as staff costs with a corresponding increase in share option reserve within equity. The fair value is measured at grant date using the Binomial model, taking into account the terms and conditions upon which the options were granted. Where the Eligible Participants have to meet vesting conditions before becoming unconditionally entitled to the options, the total estimated fair value of the options is spread over the vesting period, taking into account the probability that the options will vest.

During the vesting period, the number of share options that is expected to vest is reviewed. Any resulting adjustment to the cumulative fair value recognised in prior years is charged/credited to the statement of profit or loss for the year of the review, unless the original staff costs qualify for recognition as an asset, with a corresponding adjustment to the share option reserve. On vesting date, the amount recognised as an expense is adjusted to reflect the actual number of options that vest (with a corresponding adjustment to the share option reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Company's shares. The equity amount is recognised in the share option reserve until either the option is exercised (when it is included in the amount recognised in share capital for the shares issued) or the option expires (when it is released directly to accumulated profits).

## OTHER INFORMATION

### Code Provisions A.5.1 to A.5.4 of the CG Code — Nomination Committee

Under code provisions A.5.1 to A.5.4 of the CG Code, listed issuers should, among others, establish a nomination committee with specific written terms of reference. The Company has considered the merits of establishing a nomination committee but is of the view that it is in the best interests of the Company that the Board collectively reviews, deliberates on and approves the structure, size and composition of the Board and the appointment of any new Director and assess the independence of independent non-executive Directors. The Board is tasked with ensuring that it has a balanced composition of skills and experience appropriate for the requirements of the businesses of the Group and that appropriate individuals with the relevant expertise and leadership qualities are appointed to the Board to complement the capabilities of the existing Directors.

## OTHER INFORMATION

### Code Provision E.1.2 of the CG Code — Attendance of Chairman of the Board at the Annual General Meetings

Mr. Zhang Bingnan, the Chairman, was not able to attend the annual general meeting of the Company held on 28 May 2021 due to precautionary measures against the COVID-19 pandemic adopted in China and Hong Kong. The Company considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are no less exacting than those in the CG Code.
